MISSION

To respond to global and local industry needs through cutting edge technical-vocational training that empowers individuals to contribute meaningfully to society.

VISION

To be a leading human capital development institution that develops technically proficient and ethically grounded professionals who are equipped to lead and innovate in a rapidly evolving world.

CORE VALUES

DIVERSITY

We thrive on the rich perspectives that come from a wide range of students and industries that we serve.

TEAMWORK

We are committed to both professional excellence and personal growth together as one community.

COMPETENCE

We innovate relentlessly to anticipate and meet the ever-changing needs of industry.

Excellence Center Canlubang

A Hub for Industry Collaboration, Values Formation, and Lifelong Learning

Dualtech Center held a blessing ceremony for the Excellence Center Canlubang (ECC), a space dedicated to organizing programs and activities for industry partners, graduates, and professionals. The new building will serve as a hub for various activities that reinforce Dualtech's mission of technical education, values formation, and industry collaboration.

Dualtech Center's Chairman, Mr. Rolando A. Rodriguez, highlighted the significance of the ECC in shaping individuals and communities. He emphasized the ongoing commitment to providing training and employment opportunities for the underprivileged, recognizing the impact of such initiatives on their lives.

Reinforcing the importance of sustaining these efforts, he encouraged everyone to contribute, stating that through collective support, more lives can be transformed.

16th Xingyi International Summit in Fujian, China

Dualtech Center participated in the 16th Xingyi International Summit held in Quanzhou, Fujian, China. The summit was organized by Fujian Xingyi Intelligent Equipment Co., Ltd., a global leader in floor grinding and polishing technology.

With the theme "Leading the Industry, Shaping the Future," the event brought together over a hundred professionals and experts from the flooring industry around the world. It served as a platform to showcase the latest trends and innovations in surface preparation, grinding technology, and automated solutions for the flooring sector.

Dualtech's participation highlighted the relevance of its Electromechanics Technology course, which equips students with skills needed in manufacturing and technical services. As industries adopt more advanced machinery, the demand for well-trained technicians continues to grow—not only in the Philippines but also abroad.

As part of the summit, Fujian Xingyi hosted Dualtech Center for a factory tour. The visit provided insights into the company's operations, including CNC machining, which is essential for producing high-precision metal parts for its equipment. The alignment between Dualtech's training program and Xingyi's manufacturing standards shows strong potential for collaboration.

Xingyi also runs a training center for service technicians, preparing skilled professionals to work with its international partners. This partnership with Dualtech creates opportunities for future technical training and employment, both locally and globally.

This collaboration is a promising step toward building more career pathways for young Filipino technicians in the global industrial landscape.

Toyota Smart Logistics Conference 2025

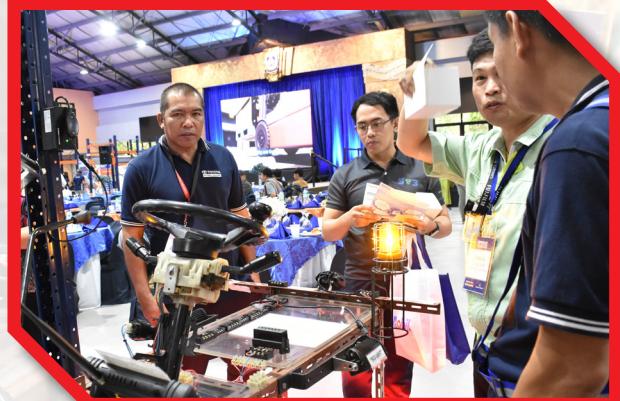

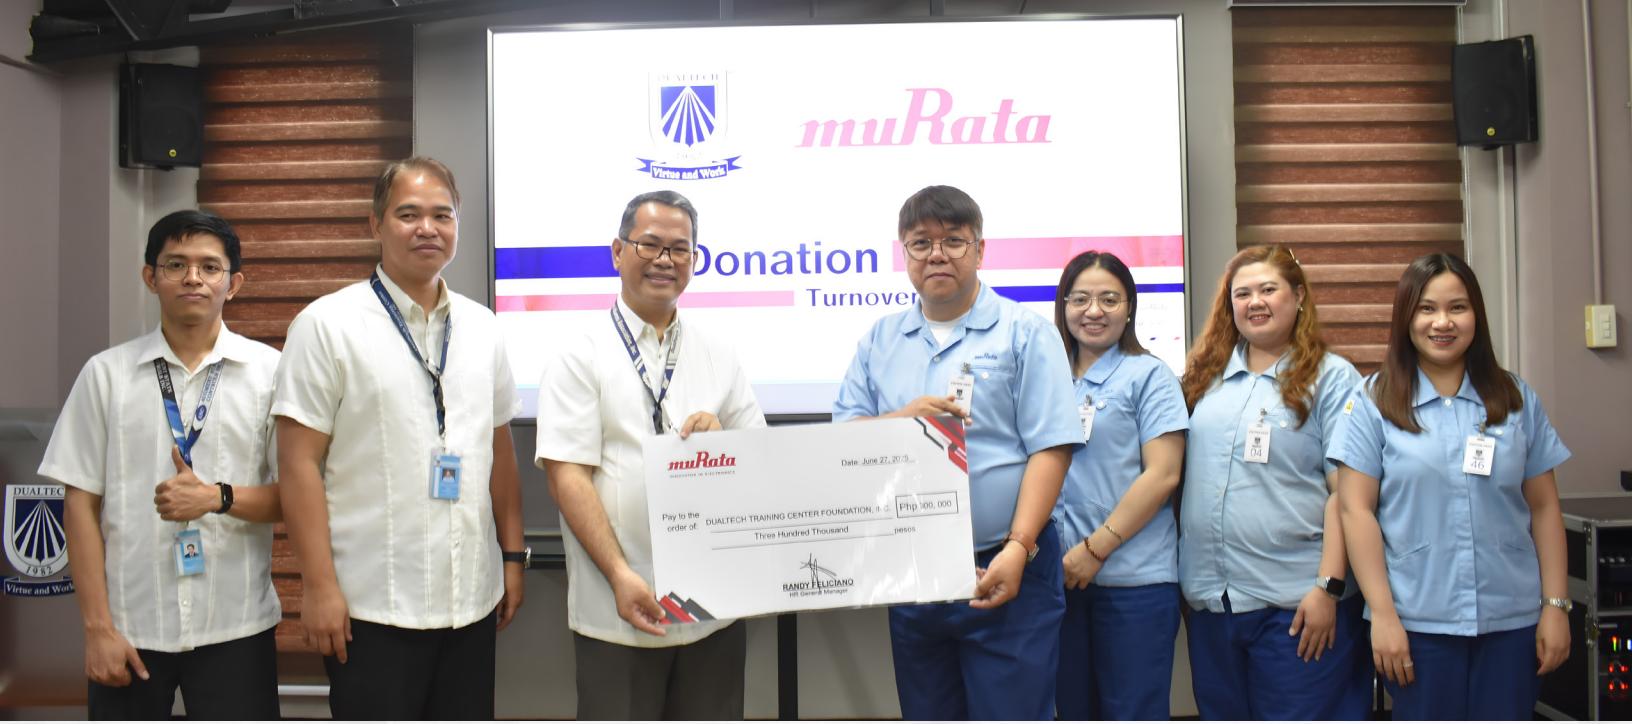

Handling Innovation Inc. (Toyota Forklifts Philippines), in collaboration with Dualtech Center, hosted the Toyota Smart Logistics Conference 2025, gathering various companies to focus on the latest innovations in smart logistics and warehouse automation.

Participants had the opportunity to learn directly from international guest speakers from Japan, Sweden, China, India, and Singapore, who shared global best practices and next-generation strategies tailored for fast-growing economies like the Philippines.

Mr. Arnold Chung, Director of Handling Innovation, Inc., and Engr. Jerry Webb Muhi emphasized that Dualtech and HII will continue to bridge the skills gap, drive innovation, and provide highly motivated individuals ready to contribute to the growing industry in the Philippines.

As part of its support for Dualtech Center, Handling Innovation Inc. donated the proceeds from the conference, further strengthening the institution's training programs.

Murata donates for Audio-Visual Presentation (AVP) Project

Philippine Manufacturing Co. of Murata held a donation turnover ceremony at Dualtech Center. This Corporate Social Responsibility (CSR) partnership began with the sponsorship of 10 Dualtech scholars, followed by support for the construction of Dualtech's al fresco dining area. Murata continues its commitment by supporting the production of an Audio-Visual Presentation (AVP) to strengthen Dualtech's advocacy and outreach initiatives.

Engr. Jerry Webb Muhi, President and Executive Director of Dualtech Center, welcomed the representatives from Murata and expressed his gratitude for their continued support. He also highlighted the fruitful history of collaboration between Dualtech and Murata, whose Corporate Grand Design aligns with Dualtech's mission—both striving to create a lasting positive impact by empowering individuals, nurturing talent, and building sustainable communities.

Mr. Randy Feliciano, HR General Manager, led the HR team composed of Ms. Abegail Santiago, HR Jr. Section Manager, Ms. Kennete Hizon, HR Recruitment Supervisor; and Ms. Rea Patricia Bueno, HR Sr. Staff. As Murata contributes to society through its OJT partnership with Dualtech, Mr. Feliciano reaffirmed the team's commitment to continue supporting other programs and initiatives of the institution.

This contribution from Murata will showcase the mission of the institution—to inspire more youth to pursue technical education, to encourage companies and foundations to support corporate social responsibility initiatives, and to engage with various sectors in advancing the mission of helping scholars make a lasting impact in their communities.

Puso at Pamana: Dualtech and Ibiden celebrate CSR milestone

Dualtech Center, led by its President and Executive Director Engr. Jerry Webb E. Muhi, participated in the 25th Anniversary Celebration of Ibiden Philippines, Inc., themed "Puso at Pamana." The event was held at Consuelo Park, First Philippine Industrial Park (FPIP) in Batangas.

The celebration not only marked a significant milestone for Ibiden but also honored the partnership between Japan and the Philippines. A highlight of the event was the signing of a Memorandum of Agreement (MOA) between Dualtech and Ibiden for a sponsorship program, in which Ibiden committed to sponsoring 25 scholars in celebration of its 25th year—demonstrating its continued dedication to education, youth development, and nation-building.

As a gesture of gratitude, Dualtech presented a plaque of appreciation to Ibiden for its support of the training programs and Corporate Social Responsibility (CSR) initiatives. This partnership has advanced Dualtech's mission to equip youth from underserved communities with technical skills and values-based formation.

The collaboration between Dualtech and Ibiden—strengthened by the active participation of the Labor Management Cooperation (LMC)—is set to continue through sustained efforts in future CSR and educational initiatives.

Education, Employment, and Empowerment

Dualtech and Ibiden's CSR Activities

Education becomes more meaningful when schools, government, and industry work together to open opportunities for the youth. With this mission in mind, Dualtech Training Center and Ibiden Philippines conducted a series of Corporate Social Responsibility (CSR) activities in Antique, Davao del Sur, Sarangani, South Cotabato, Negros Oriental, Siquijor, and Bohol, reaching learners, teachers, and communities throughout these provinces.

The team turned over donated laptops, explored collaboration opportunities with local schools, and introduced the Electromechanics Technology Program to the communities.

These initiatives highlight the continuing commitment of Dualtech, Ibiden Philippines, and DepEd Division Offices to empower communities. With collaborative partnerships, CSR support, and engagement with local communities, the initiative opened opportunities for more students and out-of-school youth to access training and future employment opportunities.

Elevate Your Career through Short Courses

In today's fast-changing workplace, continuous learning is key to staying competitive. Through the Continuing Education Program (CEP), Dualtech Training Center offers a wide range of short courses designed to help individuals strengthen both technical expertise and essential soft skills.

In 2025, Dualtech conducted training sessions covering foundational, advanced, and specialized competencies. These included Basic Electronics, Electrical Trades, Motor Controls, Industrial Control and Automation, Mechatronics, Domestic Refrigeration and Air-Conditioning, Welding and Machining, Forklift Operation, Computer Numerical Control (CNC) Milling and Programming, and various maintenance and technical programs. Alongside technical courses, leadership and values-focused trainings such as Leadership and Workplace Values, and communication programs were also delivered to support holistic development.

Dualtech also emphasized capacity building through Train-the-Trainers programs and industry-focused courses that addressed operational and workplace needs. Through these short courses, Dualtech continues to support professionals and organizations by providing practical, industry-relevant training, enhancing workforce competencies, fostering leadership and workplace values to drive career growth.

Short courses offered:

- Domestic Refrigeration and Air-Conditioning
- Electronics
- Industrial Control and Automation
- Electrical Installation and Maintenance
- Machining
- Motor Controls
- Forklift Operation
- Programmable Logic Controller (PLC)
- Information and Communication Technology
- Welding
- Scaffolding
- Management Development Program
- Mechatronics
- Computer Numerical Control (CNC) Milling and Programming

- Mentoring and Coaching
- INSPIRE for Impact and Transformation
- Leadership and Workplace Values Programs
- Mental Health and Workplace Well-Being
- Universal Values Plus for Industrial Work Officers

We provide customized courses to match your requirements, for inquiries please contact cep@dualtech.edu.ph

Dualtech Training Center featured in ABS-CBN News Channel (ANC)

Dualtech Training Center, led by its President and Executive Director, Engr. Jerry Webb E. Muhi, was invited by ANC for an interview at the ABS-CBN's Newsroom Studio in Quezon City.

During the interview, news anchors Ms. Salve Duplito and Mr. Ron Cruz asked about Dualtech Center's current training programs, its sustainable business model, and the value of its strong industry partnerships. They also discussed key indicators of student success beyond employment, the institution's plans for geographic expansion, and the challenges Dualtech faces as it continues to grow its mission of forming youth through technical skills and values formation.

Dualtech Center hosts **SOLIDWORKS** and **Fiber Optics Technology** Training

Converge ICT Solutions donated fiber optic training tools to Dualtech Center and conducted hands-on training for scholars, learning facilitators, and alumni. The training covered installation, maintenance, and troubleshooting, equipping participants with practical skills for careers in the telecommunications industry.

In addition, Dualtech Center, in collaboration with CADCentric Solutions, Inc., also hosted a SolidWorks Simulation Training. Twenty-one participants representing various industry partners attended the session, which emphasized solving engineering design challenges, enhancing product performance, and applying Finite Element Analysis (FEA) to real-world applications.

These initiatives highlight Dualtech's collaboration with industry leaders to enhance technical skills and career readiness among its trainees and employees of industry partners.

Microcredential Perform Advanced Brazing Operations

MCC-2025-04-34-HVCDRA221-HVC723337-027

Learning Outcomes

- **Apply Safety Practices in Brazing Operations**
- **Prepare Workpieces and Joints for Brazing**
- **Select and Apply Appropriate Filler Metals and Flux**
- **Perform Advanced Brazing Techniques**
- **Inspect Braze Joints for Quality Compliance**
- **Troubleshoot and Correct Brazing Defects**

Corporate Social Responsibility initiatives in Bohol, Misamis Oriental, Tarlac, and Bukidnon

Dualtech Training Center, in partnership with Triton Industrial Plastic Manufacturing Corp., Epson Precision Philippines, Inc., and SHI Manufacturing and Services Philippines, Inc. (SHIMS), with support from the Department of Education (DepEd) Bohol Division, DepEd Tagbilaran City, and local government units, visited several communities in Bohol including Panglao, Tagbilaran City, Garcia Hernandez, Dagohoy, Sagbayan, Anda, Catigbian, and San Miguel.

Triton Industrial Plastic and Epson Precision Philippines provided scholarships and promoted training opportunities in Electromechanics Technology. Meanwhile, SHIMS donated school supplies and laptops to support learners and teachers in the Alternative Learning System (ALS).

SHIMS

EPSON

In collaboration with Bukal ng Buhay Foundation, Dualtech conducted an outreach activity in Capas, Tarlac, providing food packs, engaging with families, and introducing training opportunities to the community. This initiative was made possible through the support of Dualtech's industry partners, who donated food products from Century Pacific Food, Monde Nissin, Gardenia Bakeries, Del Monte, Nutri Asia and Asia Brewery.

In a shared mission to empower local communities, Yamaha Motor Philippines, in collaboration with Dualtech Training Center and Del Monte Foundation extended support to fisherfolk and farmers in Misamis Oriental and Bukidnon. The team visited community associations and turned over power products and water pumps.

By combining resources and shared values, these partnerships not only support livelihood and environmental programs but also reflect a shared commitment to uplift lives, promote sustainable agriculture, and build self-reliant communities across Bohol, Misamis Oriental, Tarlac, and Bukidnon.

Career Talks on the Electromechanics Technology program reach more learners

Dualtech Training Center is actively engaging with communities nationwide to share career opportunities with students and their families. Through a series of career talks and community visits, Dualtech introduced its Electromechanics Technology program—an opportunity that equips youth with technical skills and values formation for stable employment and long-term careers in the industry.

This training program provide young individuals with opportunities to learn, gain practical experience, and grow into competent, ethically grounded professionals who contribute meaningfully to society.

ualtech Center has extended its career talks to various provinces across the Philippines, reinforcing its commitment to accessible, values-based technical education for all Filipino youth.

Through its growing network, Dualtech ensures that even students from remote areas gain access to transformative career opportunities through values-based technical education. This initiative reflects the mission to shape the future by empowering the youth with the skills and character needed for lifelong success.

Dualtech continues its efforts to reach more youth by visiting communities and schools. These activities also provide opportunities to inspire students and engage with teachers and school leaders who guide them toward technical-vocational careers. Communities that will need to engage with Dualtech Training Center for career advocacy and career talks may contact Jordan Rea at admissions@dualtech.edu.ph or 0933-520-0642.

Dualtech Center and DSWD Palawan collaborate to expand opportunities for the youth

Dualtech Training Center, in collaboration with DSWD Palawan, reached out to communities across the province to introduce career opportunities for the youth. Through visits and career orientations in El Nido, Taytay, San Vicente, and Puerto Princesa City, Dualtech presented how its training programs, together with industry partnerships, can provide access to education, skills development, and opportunities for stable employment.

During the visit, the team met Ms. Annevie Laurente, a parent whose two sons are Dualtech scholars under Century Pacific Agricultural Ventures, Inc. (CPAVI) and Handling Innovation. She expressed her gratitude for the support given to her sons and shared that both are expected to graduate next year.

Through the partnership of Dualtech, DSWD Palawan, and the local government units, more families are becoming aware of the opportunities available to their youth. This initiative allows youth in Palawan to explore stable career paths, contribute to their families, and work toward a brighter future.

Education-to-Employment Scholarship Program

Education creates opportunities when it leads to real employment. With this in mind, Dualtech Training Center held several Memorandum of Agreement (MOA) signing for Scholarship Program, helping deserving students access industry-relevant training and build pathways to stable career opportunities.

In 2025, Dualtech forged strategic partnerships to support the implementation of the scholarship program.

- AsiaGlobal Technologies Inc.
- Epson Precision (Philippines), Inc.
- FEU Alumni Relations Office
- Florante Tañada Scholarship Fund
- Fujian Xingyi Intelligent Equipment Co. Ltd.
- GT Foundation, Inc.
- Ibiden Philippines, Inc.
- Kapatiran-Kaunlaran Foundation, Inc. (KKFI)
- Megawide Foundation
- Philippine Ecozone Association
- Philippine Waquo Industry Corp.
- Rotary Club of Makati
- Rotary Club of Manila
- Sandvik Tamrock Philippines, Inc.
- Triton Industrial Plastic Manufacturing Corp.
- W&J Lim Foundation

Through the support of the partner foundations, industry partners, organizations, and individual benefactors, Dualtech continues to build education-to-employment pathways for youth. These partnerships ensure that more learners are given the chance to gain skills, secure employment, and improve the quality of life for themselves and their families.

Commencement Exercises 2025

Dualtech Training Center held 6 Commencement Exercises in 2025, honoring the hard work, perseverance, and personal growth of the 673 graduates. More than a ceremonial milestone, the event became a shared story of transformation—one shaped by education, values, and the collective support of leaders from various partner institutions. The ceremonies were graced by the Guests of Honor and Speakers from partner organizations and stakeholders.

In January, Honorable Mayor Angelina Simacio of Bohol, represented by Dr. Danilo Aton, PhD, PSDS of Anda, who delivered an inspiring commencement message. Mayor Simacio honored the graduates as living proof that dreams, when matched with determination and support, can become reality. Mayor Simacio encouraged them to carry forward the core values they learned at Dualtech—hard work, integrity, teamwork, and excellence—as they step into the next chapter of their lives.

In April, TESDA CALABARZON Regional Director Archie A. Grande recognized Dualtech and its industry partners for shaping not only skilled workers but future leaders. He reminded the graduates that learning never ends and urged them to continue growing, seeking knowledge, and living with purpose. Reaffirming TESDA's support through programs, scholarships, and partnerships, he left the graduates with a powerful reminder: true success is measured not by what one knows, but by how knowledge is used in service of others and the nation.

In July, TESDA Deputy Director General for TESD Operations Vidal D. Villanueva III delivered a call to live with purpose, integrity, and compassion. He affirmed that the graduates are now equipped not only with technical competencies but with strong values to guide them throughout life. His message concluded with a simple yet profound reminder—to love: one's work, family, friends, faith, and even those who are difficult to love—because love inspires people to build, heal, forgive, and persevere.

Mr. Francisco Zaldarriaga, President of the Philippine Ecozones Association (PHILEA), described the commencement in October as more than a ceremony—it was a celebration of transformation and a commitment to change. He acknowledged the diverse journeys of Dualtech students, many of whom came from communities where opportunities once seemed distant. They stood ready as future professionals and leaders of change, prepared to help build a better future.

In November, Mr. Leo De Leon, President of Allegro Properties, shared his personal journey and the three guiding principles behind his success: Attitude, Belief, and Commitment. From starting as an accounting clerk to building a thriving business through hard work and perseverance, his story encouraged graduates to become people who make things happen, to never give up, and to see graduation not as an end, but as the beginning of new opportunities.

Representing the Adamson University Cocofed Scholars Alumni Foundation, Mr. Cresenciano G. Maramot, President and Managing Director of SGS Philippines, Inc., delivered an inspiring message for Dualtech's last graduating batch in December. He praised Dualtech for not only developing technical competence but also instilling strong values and resilience. Reflecting on the graduates' two-year training, he emphasized that education, perseverance, and character are the strongest tools for creating lasting change.

These messages formed a single, powerful narrative that affirmed Dualtech's mission of shaping skilled, values-driven professionals ready to serve their communities, industries, and the nation.

One Dualtech, Always Family: Alumni get-together 2025

The Dualtech Alumni Get-Together, themed “One Dualtech, Always Family,” brought graduates from different batches. Alumni reconnected, shared updates on their careers and personal lives, and reflected on how their training shaped their work habits, values, and decisions.

One of the highlights of the event was the presentation of updates on Dualtech’s programs, including the Continuing Education Program (CEP) for upskilling, as well as the recognition of Dualtech graduates who have supported the institution and its scholars through community relations initiatives and donations.

In his closing remarks, Engr. Jerry Webb E. Muhi, President and Executive Director of Dualtech, reminded everyone that being a Dualtech alumnus is a lifelong journey. He emphasized that even after graduation, their connection with Dualtech continues and that they remain part of the Dualtech family—as alumni, mentors, and sources of inspiration.

He encouraged them to continue sharing their knowledge and experiences to help strengthen and improve the institution, urging everyone to think of ways to uplift and advance their alma mater.

Dualtech Center recognizes Sponsors on 43rd Foundation Anniversary

Dualtech Training Center held a Sponsors' Day to recognize the sponsors whose support has made its scholarship programs possible, opening opportunities for underprivileged youth.

Dualtech also shared updates on the impact of these sponsorships, noting that many graduates are now employed locally and abroad, applying not only the technical skills but also the values they learned at Dualtech. These success stories are living proof that every investment in a student creates real change in communities.

The following sponsors were recognized during the event:

- Florante Tañada Scholarship Fund
- Marubeni Scholarship Foundation, Inc.
- Lao Foundation, Inc.
- Orani Suhay Foundation, Inc.
- GT Foundation, Inc.
- Angelicum Charitable Foundation, Inc.
- Forgotten Places Inc.
- ReachOut Ville Foundation, Inc.
- W&J Lim Foundation, Inc.
- Kapatiran-Kaunlaran Foundation, Inc.
- Andres Soriano Foundation, Inc.
- FEU Alumni Relations Office
- Eagle Cement Corporation
- Xavier School, Inc.
- Mr. Ramon Yatco
- Mr. Jack & Ms. Amor Herbster
- Mr. Gabriel Tong
- Ms. Josephine Javelona
- Añover Family
- Philippine Waquo Industry Corporation
- Ibinden Philippines, Inc.
- Epson Precision Philippines, Inc.
- Fujian Xingyi Intelligent Equipment Co., Ltd.

In his closing remarks, Engr. Jerry Webb E. Muhi, President and Executive Director of Dualtech, expressed gratitude to all sponsors.

He emphasized that supporting even just one student creates a ripple effect—uplifting families, inspiring communities, and shaping future leaders with strong values and a drive to succeed. "Let us continue working together, let us ignite more sparks of potential, and let us build more futures. Together, we will build our nation." Engr. Muhi shared.

Sponsor's Day served as a reminder of the partnership between Dualtech and its benefactors in providing opportunities, transforming lives, and bringing hope to the youth.

Work Values and Dual Training immersion program in action

Dualtech Training Center organized the Dualtech 103 Work Values and Dual Training System immersion program for guests from the Department of Education (DepEd) and local government officials from Antique, Bohol, Zambales, Cebu, Palawan, and Davao. The program was specifically designed to introduce the delegates to Dualtech's training approach, which combines theoretical knowledge with in-company practical experience.

As part of the immersion, the group visited Dualtech industry partners, including EMD Technologies Philippines, Inc. (NEXEM), Aumovio Philippines, Enchanted Kingdom, Epson Precision Phils., Inc., Honda Philippines Inc., Yamaha Motor Philippines, Inc., TE Connectivity Mfg. Phils., Inc., Shindengen Philippines Corp., Triton Industrial Plastic Manufacturing Corp., S-Power Corporation, and Philippine Manufacturing Co. Murata Inc.

Some officials completed the program by attending the commencement exercises and witnessing the graduation of their scholars. These visits showcased the strong partnership between Dualtech and its industry partners, emphasizing the role of hands-on training and values formation in preparing scholars for successful careers.

Top Industry Partners in 2024

Dualtech Center recognized its Top Industry Partners of 2024 in appreciation of their exceptional partnership and commitment to empowering the youth through collaborative training efforts.

The recognized Top Industry Partners were:

Amherst Laboratories, Inc.
D&L Premium Foods Corporation
Daiwa Seiko Philippines Corporation
EMD Technologies Philippines, Inc.
Handling Innovation, Inc.
Licton Industrial Corporation
Natura Aeropack Corporation
Shindengen Philippines Corporation
S-Power Corporation
Tritooling Precision Corporation

The industry partners stood out not only by providing training that equips scholars for eventual employment, but also by extending further support to the institution and its scholars through various initiatives.

Building Hope, Transforming Futures: Dualtech Industry Partners Recognized on Partners' Recognition Day

In celebration of its 43rd Foundation Anniversary, Dualtech Training Center recognized its industry partners for their support and collaboration through the years. The Partners' Recognition Day not only celebrated long-standing partnerships but also recognized the collective efforts that have shaped the lives of thousands of young scholars, helping them grow in skills, character, and purpose.

The following companies were recognized during the event:

40 YEARS

Vishay Philippines, Inc.

30 YEARS

Monde Nissin Corporation
Roberts Automotive & Industrial Parts
Manufacturing Corporation

25 YEARS

Ogino Philippines Corporation
Maratex Manufacturing Corporation
TRP, Inc
Team Pacific Corporation
Silgan White Cap South East Asia, Inc.

20 YEARS

EMD Technologies Philippines Inc.
Asian Antibiotics, Inc.
Licton Industrial Corporation
Juntec Corporation
H&E Manufacturing Corp.

10 YEARS

Beauchem Thermtech Group, Inc.
Chiyoda Corporation
Forms International Enterprises Corporation
Kinergy Philippines, Inc.

5 YEARS

Artesyn Embedded Technologies Phils., Inc.
Broadconcept Solution and Technical
Services Corporation
Besterm International Corporation
Sabpptech Services Incorporated
Kyokuto Kaihatsu Enterprise

The new partners were also presented with certificates of appreciation for their collaboration with Dualtech through partnerships and OJT deployment this year.

In his closing remarks, Engr. Muhi expressed his appreciation to all industry partners for their steadfast trust and support over the years. He encouraged everyone to continue working together in shaping a stronger technical workforce and in fulfilling Dualtech's mission of "Building Hope, Transforming Futures."

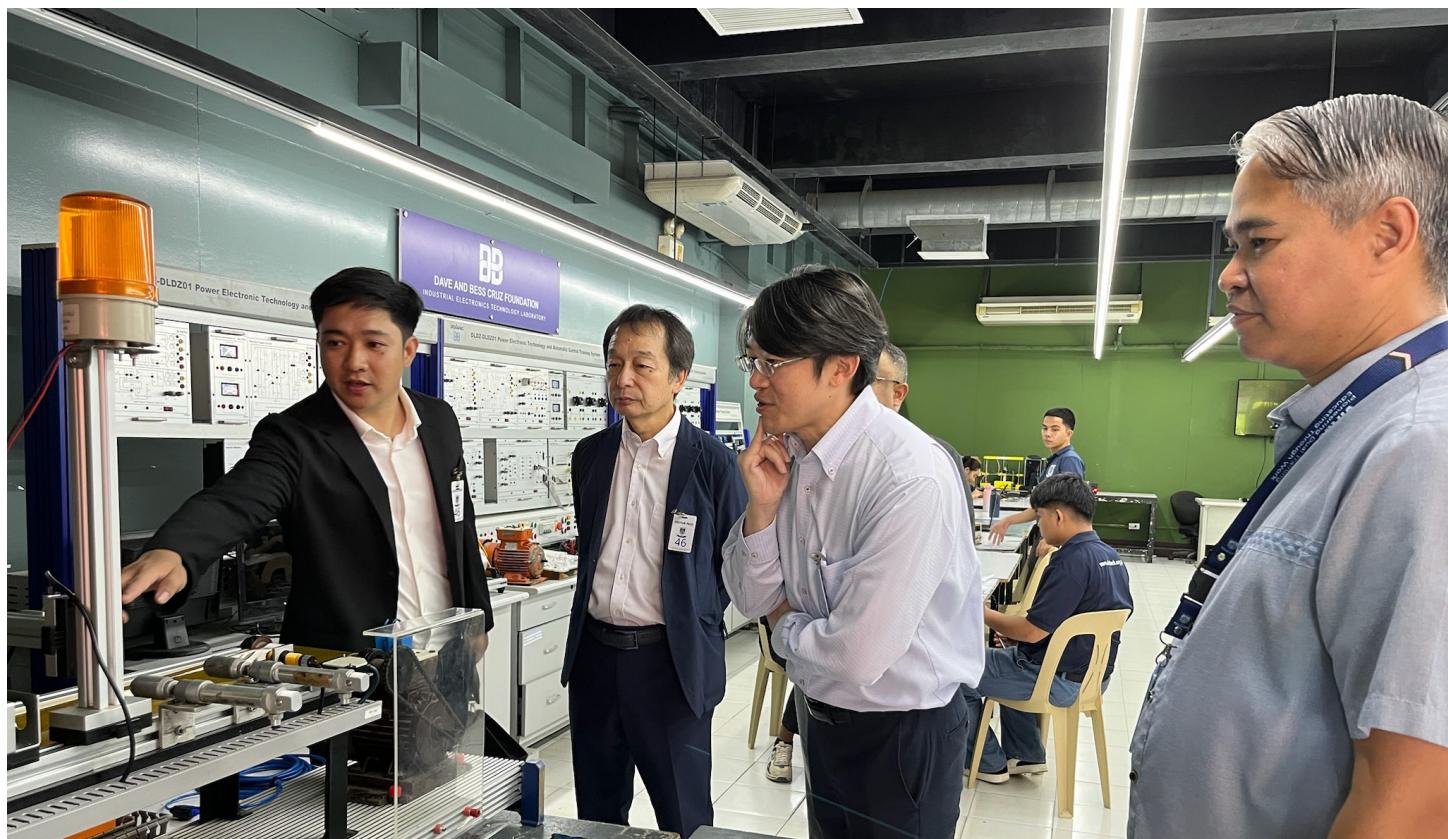

Shaped by Skill and Purpose: Alumnus shares life lessons and words of encouragement

Dualtech Training Center became an important part of Martin Roldan's younger years, shaping not only his skills but also the way he viewed life.

Today, Martin serves as the Operations Manager at Hayashi Seiko Philippines and as a Section Chief at the Totsuka Factory in Japan (HSK). For Martin, Dualtech was more than preparation for employment — it was preparation for life. He believed that skills alone are not enough, because character gives purpose to one's work. Through practical training, he gained competence and confidence; through values formation, he gained clarity and purpose. He left Dualtech not only ready to work, but ready to grow, serve, and make a difference.

To future Dualtech trainees, he offers a message of encouragement: "Believe in your potential, work with discipline, and learn with passion." He hopes that others will give their best, knowing how life-changing the experience can be.

Martin extends his gratitude to Dualtech for shaping not only skilled trainees, but principled and hardworking professionals ready to serve with excellence. He believes that Dualtech's commitment continues to transform lives, build character, and open doors toward better futures.

Dualtech Alumni Give Back

Dualtech Training Center, together with its alumni, continues to bring the Electromechanics Technology program closer to communities by reaching out to students in their hometowns, including Quezon, Oriental Mindoro, Surigao del Sur, and Agusan del Sur. This initiative aims to inspire students to pursue technical education and explore career opportunities in the industry.

Dualtech alumni also returned to support current trainees not only through words of encouragement but also through acts of generosity. Mr. Nathaniel O. Pollo of JCRZ Realty led an outreach activity where he provided food packs and shared an inspiring talk that highlighted the importance of perseverance, discipline, and determination in achieving one's goals.

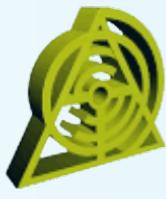

Another alumnus, Mr. Rosauro M. Estadilla, currently working at TÜV SÜD Middle East LLC, gives back by sponsoring three Dualtech scholars from Bohol and Camarines Sur. During his visit, he personally met with the scholars, conducted interviews, and shared insights from his professional career. He encouraged them to remain resilient, stay dedicated to their training, and value both education and character as foundations for long-term success.

These efforts reflect the commitment of Dualtech alumni to give back and inspire more scholars to carry forward the valuable experiences gained through their training at Dualtech.

2025 NEW PARTNERS

- Advanced Molding Co., Inc.
- Alarm Data Security System Inc.
- Barista Depot, Inc.
- Converge ICT Solutions, Inc.
- Dezu Corporation
- DMC Construction Equipment Resources Inc.
- Friendworks Engineering Technology and Merchandise
- Fruitas Holdings, Inc.
- Gain Construction and Development Corporation
- Kyouritsu Electronics Philippines, Inc.
- Powertrunking System, Inc.
- Readycon Trading & Construction Corporation
- Seatrium Subic Shipyard, Inc.
- Scuola Enterprises, Inc.
- SMC Asia Car Distributors Corp.
- Souhatsu Philippines, Inc.
- ZAMA Precision Industry Manufacturing Phils., Inc.

CONVERGE

Parents' Formation Seminar on the Value of Education

Dualtech Center conducted a Parents' Formation Seminar focusing on "The Value of Education." The event brought together parents and guardians from Cavite, Batangas, Laguna, Metro Manila, Negros Occidental, Bohol and Quezon Province to learn how they can better support the trainees during their training at Dualtech. The seminar was designed to help parents and guardians appreciate their role in providing the necessary support for Dualtech trainees.

Last December 6, 2025, Dualtech recognized the first batch of parents who successfully completed the full program. The parents received certificates in recognition of their commitment to the trainees' growth and their role in building a supportive home environment.

The Parents' Formation Seminar is a three-module program that continues to be implemented for all parents of Dualtech students. Through initiatives like this, Dualtech seeks not only to form skilled professionals but also to strengthen families who serve as the foundation of every student's training.

Theme: "Harnessing TVET Ecosystem in Advancing the TESDA Best 8-Point Agenda"

TESDA,
Kaya ng Kalya

2025 Regional TVET Forum in Zamboanga Peninsula

Dualtech Center participated in the TESDA Zamboanga Peninsula's 2025 Regional TVET Forum held at the Pavilion Hall, Provincial Government Center, Dao, Pagadian City. The event brought together TVET leaders, industry partners, government agencies, and stakeholders to discuss innovations in technical education and skills development.

With the theme "Harnessing TVET Ecosystems in Advancing the TESDA Best 8-Point Agenda," the forum aimed to foster collaboration, share best practices, and explore strategies for enhancing TVET programs.

Engr. Jerry Webb E. Muhi, delivered a presentation on "Building Industry-Driven Skills Training Programs." Engr. Muhi shared the importance of strengthening ties between educational institutions and industries to ensure that graduates are well-equipped for real-world employment. He highlighted that aligning skills training with industry needs is key to addressing the existing skills gap and improving workforce readiness.

The discussions underscored the importance of industry collaboration, ensuring that technical education remains aligned with workforce demands. This initiative contributed to the ongoing efforts to build a highly skilled, flexible, and competitive workforce in the Philippines.

Integrating Values Education into Technical and Vocational Education and Training (TVET)

Recognizing the need for a workforce that is not only skilled but also grounded in strong ethical values, TESDA Zamboanga Peninsula and Dualtech Center hosted a seminar-workshop on integrating values education into technical vocational education and training (TVET).

Director Tarhata S. Mapandi, CESO III, welcomed participants from various areas, including Zamboanga City, Isabela City, Zamboanga del Sur, Zamboanga del Norte, and Zamboanga Sibugay. This initiative falls under TESDA's 8-Point Agenda, which aims to enhance the Technical Vocational Education and Training (TVET) system in the Philippines.

Mr. Leonard Calma, Dualtech Center's Manager for External Affairs, provided an overview and introduced the speaker, Mr. Floyd Batongbakal, who facilitated discussions across five key modules, covering values formation, effective teaching methods, practical strategies, organizational values, and action plan development.

The partnership between TESDA Zamboanga Peninsula and Dualtech Center, drives positive change in TVET education in the region. By focusing on both skills and values formation, this collaboration is shaping a future workforce that is not only competent but also guided by integrity and social responsibility.

Republic Act No. 12063, also known as the Enterprise-Based Education and Training (EBET) Framework Act, establishes a unified system for industry-driven skills development in the Philippines. It integrates apprenticeship, learnership, and dual training under a single framework to address job-skills mismatches, enhance workforce competitiveness, and link education directly with industry needs, promoting collaboration between TESDA, TVET institutions, and the private sector.

BENEFITS OF ENTERPRISES

Sa TESDA, KayangKaya

Enhances productivity

Improves competitiveness

Improves talent retention

Transitions existing employees to new jobs

Increases talent mobility across different roles and

Attracts new or diverse talents

Strategic Partnerships

Incentives

PROGRAM REGISTRATION PROCEDURE

1. Conduct of Orientation

2. Submission of Application Documents

3. Evaluation of Application Documents

4. Conduct Site Inspection

5. Recommendation and Issuance of CTPR

Enterprise-Academe Collaboration through the EBET Program

In line with Dualtech's continuing efforts to strengthen enterprise-academe collaboration through the Enterprise-Based Education and Training (EBET) program, courtesy visits, consultations, and partnership activities were conducted with TESDA regional and provincial offices and industry partners across different areas.

Dualtech conducted courtesy visits to TESDA offices in CAR; Benguet; Nueva Vizcaya; Region III, including Pampanga and Zambales; Cavite; Batangas; Rizal; Region VI; Region X, including Misamis Oriental and Misamis Occidental; Region XI, including Davao de Oro; Region XII (SOCCSKSARGEN), including SarGen; and the Zamboanga Peninsula. These engagements strengthened collaboration with TESDA offices nationwide to facilitate the registration and implementation of the apprenticeship program among industry partners.

Dualtech Center, in collaboration with TESDA Laguna, hosted an Industry Forum on the Enterprise-Based Education and Training (EBET) Framework Act (Republic Act No. 12063). Dualtech also supported TESDA NCR and TESDA Cavite in inviting partner enterprises to transition from the Dual Training System to EBET. The forum gathered industry partners to discuss key provisions of the law aimed at developing a more competent and industry-ready Filipino workforce.

In addition, Memoranda of Understanding (MOUs) were signed with TESDA Region III and TESDA Region XI, further reinforcing the shared commitment to the implementation of the EBET program.

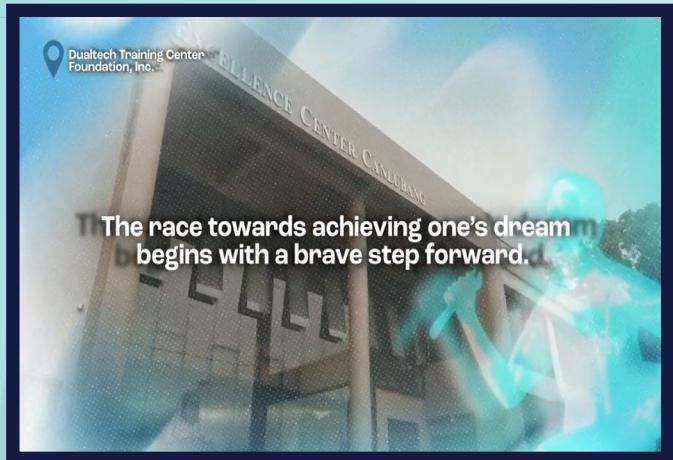

BUILDING FUTURES THROUGH PARTNERSHIP

For over 40 years, Dualtech Training Center has remained committed to building not just learning spaces, but an environment driven by purpose; where trainees uncover their strengths and prepare for a future grounded in skills, character, and opportunity.

This mission is further strengthened through the support of the Philippine Manufacturing Co. of Murata, Inc., which sponsored the production of Dualtech's Audio-Visual Presentation.

Join us as we continue to expand our programs, connect with more communities, and forge even stronger partnerships with industry.
